"Living well every day"

September 2022: Updated Visiting Policy

- 1. Testing: Routine** testing has been suspended. However, if you have any cold or flu like symptoms (temperature, sore throat etc), please take a COVID-19 test to ensure you are negative before you visit. Please keep a box of tests at home (we will still be able to supply you with boxes of test kits).
- 2. Visits:** you no longer have to book a visit.
- 3. Facemasks:** we encourage you to continue to wear facemasks, especially as you move through the hallways and any other communal areas. Also please make use of the hand sanitisers available throughout the home.
- 4. Children are welcome:** those who are under 11 can decide whether or not to wear a face mask.

We would like to remind all visitors that they should not enter the care home if they are feeling unwell. Transmissible viruses such as flu, respiratory syncytial virus (RSV) and norovirus can be just as dangerous to care home residents as COVID-19.

If visitors have any symptoms that suggest other transmissible viruses and infections, such as cough, high temperature, diarrhoea, or vomiting, they should avoid the care home until at least 5 days after they feel better.

With very best wishes

Linda Cooke
